## Задание

Изучить функционал Yougile

The screenshot shows the Yougile web application interface. The main header includes the URL [pr-cbs.yougile.com](http://pr-cbs.yougile.com), a search bar, and several navigation tabs: 'Проект "Портал ЦБС"', 'Предложения', 'Технические задачи', and 'SEO-оптимизация'. On the left, a sidebar displays the user's profile, tasks, companies, messaging, and activity feed. The central area features a Kanban board for the 'Portal CBC' project. The board has three columns: 'В работе' (In Progress), 'Завершено' (Completed), and 'Выполнено' (Done). Each column contains a list of tasks with checkboxes indicating completion status and due dates. The background of the interface shows a blurred photograph of people in an office environment.
